Seminar/ Workshop Request Form

CSJ is dedicated to **reducing mental health stigma** through education. If people understand, they are more equipped to show compassion instead of fear. If you are interested in having CSJ present to your group, **please complete the following form**. While we make every effort to meet requests, certain peak times of the year do not allow us the time or resources to do outreach programs. If we are unable to meet your need, we can discuss another time of the year when we might be more available to meet your needs.
